

Onwards to a Greener, Healthier Planet

Together with One Tree Planted, Teleperformance is building a better and sustainable world for all.

Our Commitment to Strengthen Reforestation Efforts

TP is planting
500,000
trees

5 world regions:

USA, India, Philippines, South America, and Portugal

100,000
trees per region

Our Pledge to Build a Better World

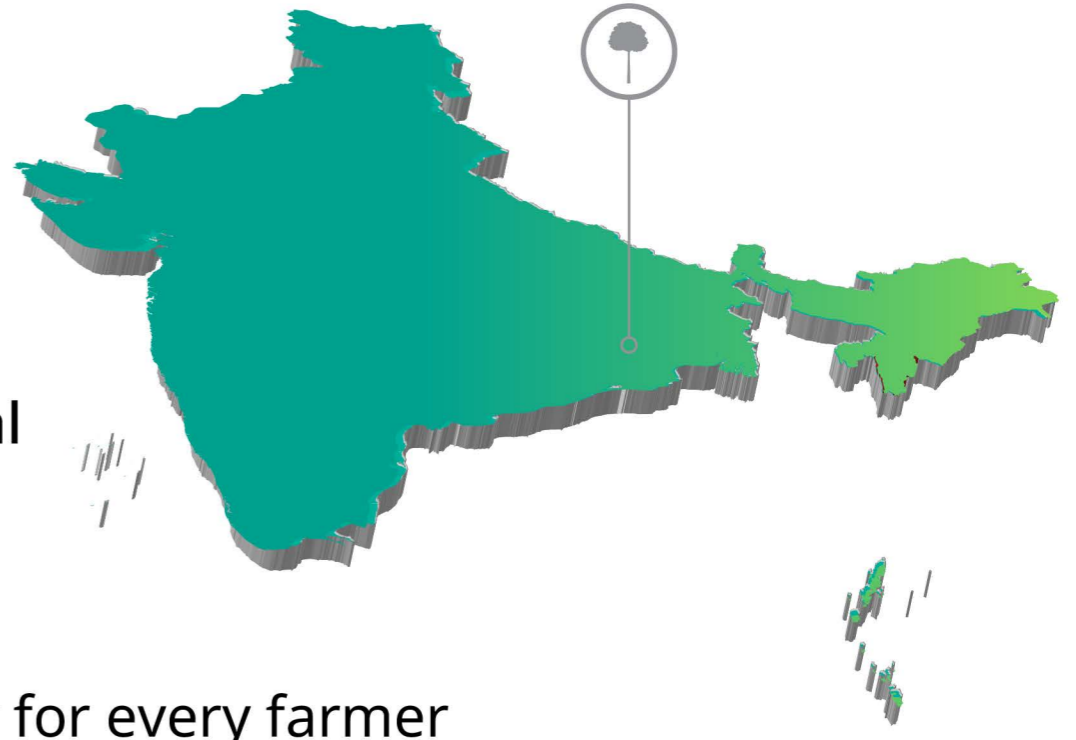

Throughout the year, TP continues to support One Tree Planted's reforestation efforts worldwide.

India

Reforestation efforts in marginalized states: Haryana, Uttar Pradesh, Uttarakhand, Rajasthan, Maharashtra, Odisha, and West Bengal

The Benefits

- Additional income up to 10 USD per tree per year for every farmer
- Reduced hunger, malnutrition, and sustainable livelihoods
- Reduced water consumption
- Prevention of soil erosion and decrease in pollution

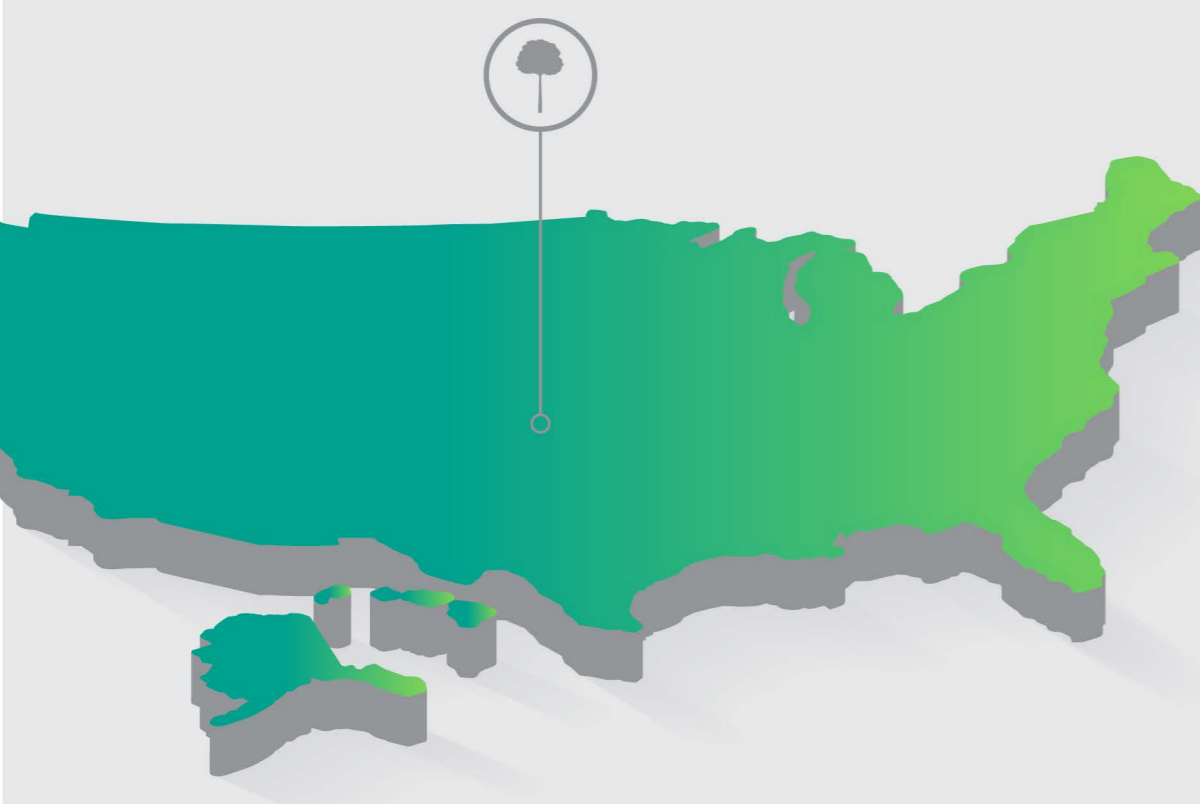

USA

Supporting One Tree Planted's goal of planting longleaf pine trees

The Benefits

- Habitat and forest restoration
- Ensures the sustainability and success of forest and habitat management
- Benefiting landowners from diverse backgrounds

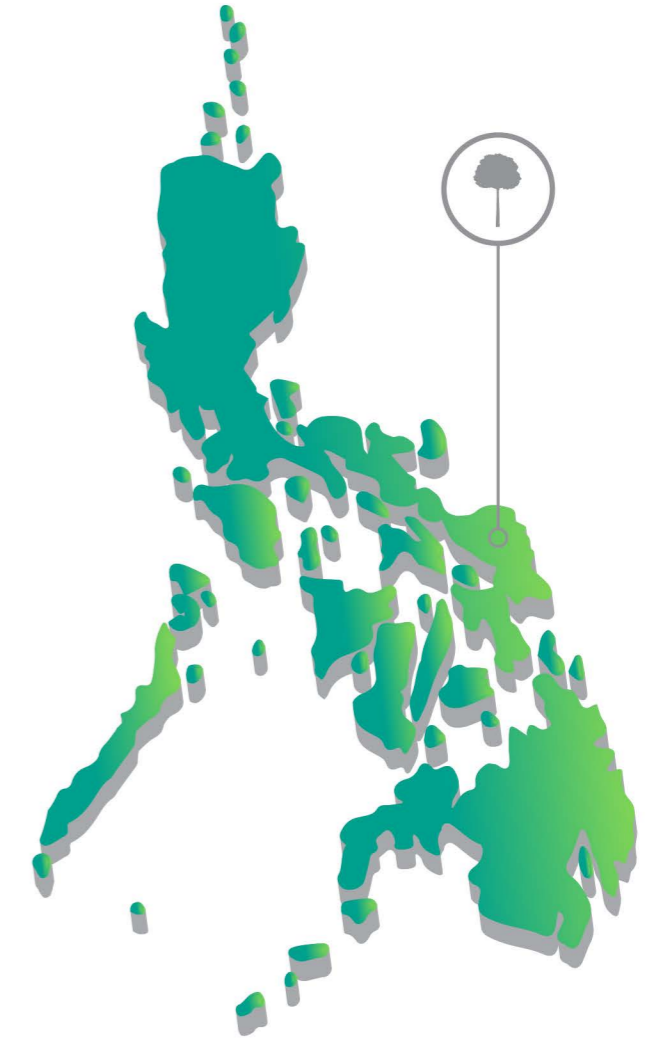

Philippines

Supporting One Tree Planted on its reforestation efforts within the Ancestral Domain of Indigenous communities

The Benefits

- Provides sustainable livelihood to Indigenous communities
- Revitalized wildlife habitat
- Conserves and protects species in the area
- Increased food source

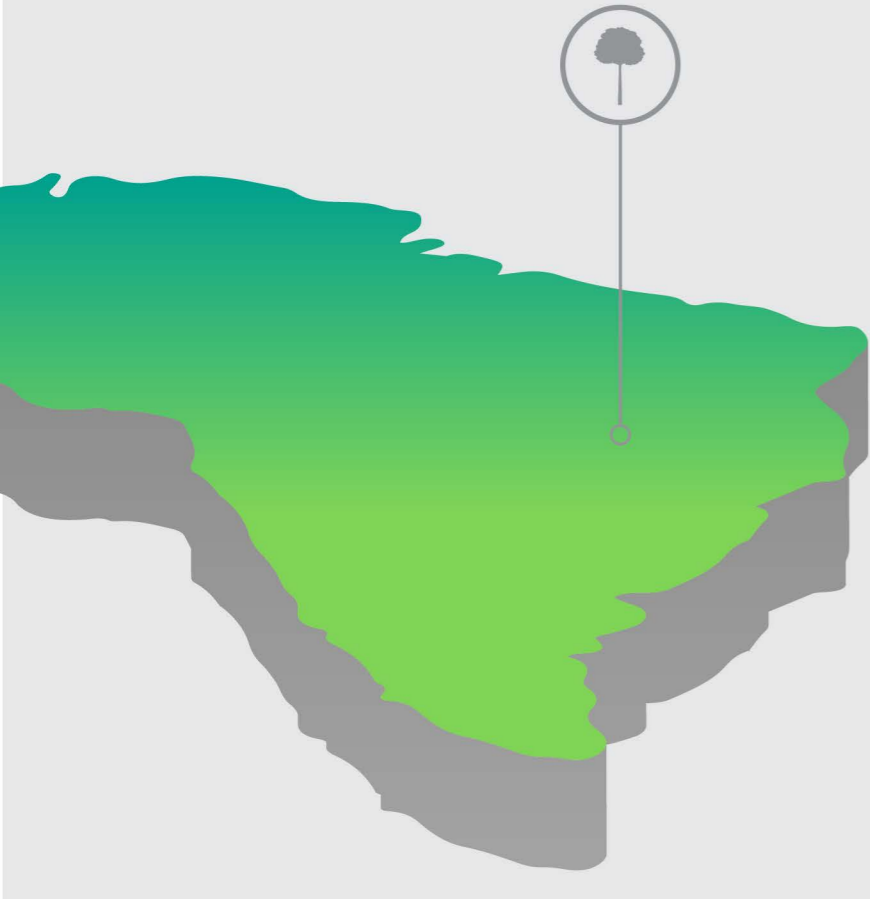

Latin America

Supporting One Tree Planted on its reforestation efforts of the high Andes Polylepis forests across Argentina, Bolivia, Chile, Ecuador, and Peru

The Benefits

- Creates and feeds the headwaters of major water sources, including the Amazon rainforest and wetlands
- Contributes to the economies of local communities

Europe

Supporting One Tree Planted in restoring the Leiria Pine Forest in Portugal, which includes planting of maritime pine, cork oaks, and strawberry trees

The Benefits

- Supports the recovery of biodiversity
- Improves the ecosystem's health and integrity
